

Please do not get rid of the Indiana Telephone Privacy Law. We so enjoy not having the phone ringing off the hook all night due to unsolicited phone calls. All of the companies associated with the CBA will get my business if I need their services. I will call them when their services are needed. By allowing them to solicit me again, I would be less likely to use their services in the future. I do not use companies which call me. Do not change this Law. It would hurt these companies more than help. Thank you.
